ANDERSON, S. C., WEDNESDAY, DECEMBER 15, 1897.

VOLUME XXXIII--NO. 25.

Xmasings for Men!

CHRISTMAS is at hand and you will soon want to purchase Presents for relatives and friends. What to buy is the question. Any article advertised below will be an acceptable Gift for any man or boy. The Goods are the best, and the prices—well, you can see for yourself.

Neck-Gear!

Perhaps you think nothing presentable can be had for Half a Dollar. That is a mistake. We have Scarfs, Bows, Puffs, Four-in-Hands innumerable at that price. Some as low as a Quarter. Lawn Ties for evening wear. Just the thing for Christmas and New Year parties. Two in enamelled paste-board box Fifty Cents.

Gloves AND Handkerchiefs.

These are, perhaps, the most acceptable Gifts—articles that make a good show for little money. For \$1.50 we can give you as good a pair of Gloves as a man would care to wear. For the same money, half-dozen Hemstitched Linen Handkerchiefs. Silk Handkerchiefs in great variety at 25c, 50c, 75c, and \$1.00.

Shirts.

No more acceptable Gift than Shirts could be thought of. No man ever had too many of these. We have them in all styles, laundered or unlaundered, white or colored. Which do you prefer?

COLLARS AND CUFFS.

We have these in as great variety as the Scarfs. This price—whatever you like to pay. 2100 Linen Collars only \$1.50 per dozen. 2100 Linen Cuffs only 25c. per pair.

HALF HOSE.

Good Socks for \$1.50 per dozen, in all colors. Something better for \$3.00 per dozen, in all the new shades. Prices, like the Goods, are right.

B. O. Evans & Co.

Prices Blown to Atoms.

Profits Twisted Off at the Roots.

MILLINERY, MILLINERY,

To be sold at prices never heard of before.

A regular 25c. Sailor Hat for 10c.

A regular 50c. Sailor Hat for 25c.

A regular 75c. Sailor Hat for 50c.

Trimmed Hats, sold all over the place for \$1.50, now 75c.

The secret is that we have no expensive trimmer hired. Our Miss Dora Geisberg attends to trimming as well as selling.

In fact, we do all our own work. No Clerks to pay, hence our expense is very small in comparison with other houses who employ a large force, all of which the consumer pays for.

Men's and Boys' Clothing,

For less than others are offering at Cost.

QUILTS and BLANKETS from 50c. up.

A regular \$3.50 MACKINTOSH for \$2.25, which is guaranteed to wear, made by one of the most reliable firms in the country.

We do not sell trash. We were born here, and expect to be here, so the Goods we sell must be as represented. NO FAKES IN OUR BUSINESS. Remember the place—

THE FAMOUS,

14 Brick Range, West Side Public Square.

L. GEISBERG, Proprietor.

WE ARE THE FEEDERS.

HAVING bought the Stock and good will of E. H. Poore & Co. we kindly ask your attention to the fact that we are "The Feeders of the People." Our market is supplied with the very best Meats than money can buy—BEEF, PORK, MUTTON, FISH, OYSTERS, CHICKENS, SLICED HAM, BREAKFAST BACON, by the piece or sliced.

Mr. J. C. Nally has charge of our Fresh Meat Department, and will look after the wants of our customers with the greatest care.

Our Vegetable, Fruit and Grocery Department is presided over by quiet and honest Manie Fant.

In addition to the above we have opened a City Dining Room and Restaurant, where regular Meals will be served from 12 to 2. Before and after these hours the Restaurant feature will prevail, where the nicest Fish, Oysters, Birds, Steaks, Ham, &c., can be had at all hours.

Mr. Lyeth has spent the greater part of his life in the Hotel and Restaurant business, and knows how to cater to the appetite of his fellows.

This Store will be run on a High Class Store, where everything will be conducted on strictly legitimate and business principles.

Very respectfully,

BUTLER & LYETH, MANAGERS.

W. L. LYETH, Manager Restaurant.
M. L. FANT, Manager Grocery Department.
J. C. NALLY, Manager of Market.
J. M. BUTLER, Back Number.

STATE NEWS.

—Rock Hill has a case of small pox. The patient caught it in Atlanta.

—Ex-President Cleveland is spending a few days at Georgetown shooting ducks.

—The Dispensary in Greenville, did not pay expenses during the month of November.

—The recent report that typhoid fever was epidemic at Winthrop College is stated to have been entirely erroneous.

—Mrs. Divers Kinney was burned to death at her home near Effingham, Florence county, while cooking in an open fireplace.

—A poultry department is to be established in the department of agriculture at Clemson College for the purpose of experiment and instruction.

—November Davis, an old colored man was burned to death in his cabin in Varnville. It is supposed that he was under the influence of liquor and fell in the fire.

—The Greenwood, Anderson and Western Railroad was sold at Sievers, S. C., by order of the United States Circuit Court last Thursday. The price paid was \$15,600.

—The penitentiary report has not been finally made up, but it is pretty certain that the institution will pay into the treasury at least \$10,000, and be in shape to run on a cash basis next year.

—It is thought and rumored that Senator Archer, of Spartanburg, will oppose Governor Ellerbe next year. The Senator is a man of ability and will have a large following if he should enter the race.—*Saluda Sentinel.*

—At Youngs, Laurens county, on the 9th inst., John Wharton, an Irishman, was rolling logs up a hillside to a sawmill. A heavy log broke the gearing and rolled down the hill, going over Wharton, killing him instantly.

—The State Board of Control gave out figures which show the business of the dispensary for September, October and November, 1897, to have been \$287,421.87. The same months in 1896 show \$276,542.70, a decrease in receipts of \$10,879.17.

—Arthur Henson and a son of George Neely, not far from Greers, were handling their pistols carelessly when Henson's was discharged and the ball inflicted a fatal wound in Neely. These boys were 14 to 16 years old and were using pistols as playthings.

—Work began on the Pickens and Easley railroad Tuesday and about seventy mules and horses were put to work and about seventy-five or one hundred hands were also on hand. There is no doubt about the completion of the road now. Hurrah for Pickens county.—*Pickens Journal.*

—Mr. R. R. Legare, of Beaufort, has on exhibition a veritable curiosity in the shape of a small fish which was brought up by the pump in his well. The fish is about three inches long and blind. It looks like a mullet about the head, and a leach in the balance of the body, and is very similar to the small fish caught in the underground lakes of Mammoth cave.

—Last Thursday John Bryant, a workman, was blown to atoms by a dynamite explosion about two miles from Columbia. The county is now quarrying rock for its macadam road and Bryant is thought to have gone about the box in which the dynamite is kept with a lighted pipe, which resulted in the explosion and his death. Parts of his clothing and body were found about the ground.

—Edward McCrady's History of South Carolina will be published during the present month by the Macmillan company, of New York. It will cover the history of this colony under the Proprietary government from 1670 to 1719, and will be the most complete and accurate account of that period that has ever been given. It has all the charm of romance, and increases in interest to the conclusion of a most remarkable story.—*News and Courier.*

—Although a call has been issued for the county boards of pensioners to meet on January 25, Comptroller General Epton is afraid that he is going to have considerable trouble in getting them to assemble. The members of these boards get no salary, and usually, receive a lot of "bussing" for what they do, and it is a hard matter to get men to stand that kind of thing long. Some change in the law will have to be made if this important matter is properly attended to.

—The following from the Atlanta Constitution's Washington correspondent indicates that Senator McLaurin's illness is quite serious: Senator McLaurin of South Carolina is down with typhoid fever at his Washington residence, and it is feared the young Carolinian is a very sick man. He was not at all well when he came to Washington, but not until to-day did the physicians pronounce the case typhoid. McLaurin's severe illness of last summer has left him weak, and it is feared he may have a hard time of it.

—The St. Matthews correspondent of the *News and Courier* says: "The new law in the State Constitution giving \$2,000 to the immediate relatives of the victim of lynching will probably soon be tested in Orangeburg County. It is generally known that J. B. McLaughlin, a young attorney of this town, has been employed to sue the county for damages in the case of the negro, Brown, who was swung up at Stilton, near the town of Orangeburg, about a year ago, and shot to pieces for alleged barn burning."

From the State Capital.

Special Correspondence of Intelligencer.

COLUMBIA, S. C., Dec. 13, 1897.

The Board of Control has been in session during the past week. The regular monthly purchases were made and other routine business attended to. The Board instructed Commissioner Vance to pay to the State Treasurer the sum of \$25,000, which amount is to be placed to the school fund. The County Board of Control of Sumter County petitioned the State Board to withhold Sumter's share of the dispensary profits and that the amount be used in employing a detective to suppress the unlawful sale of whiskies and liquors in that city. The matter of employing detectives was referred to the Governor for action. The profits will be withheld from the city.

Everything is in a state of quiescence around the Capitol. The Governor is busily engaged in preparing his message for the forthcoming meeting of the General Assembly. All the forces in the various departments are getting material in shape for presentation to Legislators.

On last Thursday afternoon, about four miles out from the city, quarryman Brant was blown into a thousand atoms at the County quarry. One hundred and twenty-five pounds of dynamite in the magazine for blasting exploded, and material, it is supposed by fire from the quarry, is piled up. On the by-roads that lead into the quarry the shattered and scattered remains of what was once a human being were lying by the path. A great hole gaped in the side of the hill where the magazine exploded, and the material, it was eight feet long by four wide, and three deep. In it was kept dynamite, electric appliances, fuses and such articles used in blasting rock. John Brant had charge of this magazine. He handled the dynamite and did the shooting, and was depending on the material in the work of blasting. John Blowers, the fireman under engineer Marsh, says that he carried some fuse the engineer had given him and laid it on the end of the magazine and upon his return told Brant of it. Brant went to place it away. Previous to this one of the workmen says that just before Blowers came up to tell about the fuse he saw Brant with a pipe in his hand. He is not positive that Brant was smoking, but knew him to be an habitual smoker. So it is only a supposition that when Brant went to put up the fuse, and was leaning over the box, a spark from his pipe touched off the dynamite. Brant was blown straight away towards the road about thirty-five yards. His body passed through three large clusters of china trees, leaving shreds of clothing, flesh, skin and splashes of blood on the trees several feet from the ground. The passage of the body through the trees, was marked by scarred and broken branches. The head and legs were blown or torn from the trunk. Parts of the head and legs were picked up at least fifty yards from the magazine.

The appearance of a case of small pox at Rock Hill during the past week has caused much anxiety in regard to its probable consequences and spread in the neighboring cities. It is quite likely that the city authorities will take precautionary measures at once and order a general vaccination. Just after the opening of the South Carolina College, the faculty, acting upon the advice of the College physician, asked that each student report at the hallimary for vaccination. This was promptly done and those who had not been previously vaccinated had it done immediately. Most of them proved effective. However, those whose vaccination did not take at first reported this morning for another trial. So with such timely precautions there is no probability or possibility of the disease interfering with work of the college. It is reported to-day that the Presbyterian Female College and the Methodist Female College authorities have taken action and ordered that students be vaccinated without further delay. A. B. S.

Mr. Moody has coined many a sensible epigram. Who could say a better thing than this: "Character is what a man is in the dark."
